President's Message

What a great show we had. A special congratulations goes out to Karl and his entire committee for all the hard work with this years show. It is great to see all the club members pitch in to help. From registration to club sales to communications to the parking crew to the one's who work out at the visitor entry to those involved with the door prizes a tip of the hat for a job well done. Everything seemed to go fairly smooth. What great weather for a car show. We were truly blessed with great weather.

By the time this letter gets to most, the group will be off to Alabama. Hope you have a good time and safe travel. I will be on my way back to Canada to catch more fish.

Please continue to remember those in our club who have physical needs. Let's uphold these folks.

Remember our new meeting location for September. We will have a car show follow up plus the normal news to discuss.

I hope all is going well and see you in " September "

Sincerely

Howard

Free to good home

Rich Davis has a 200 engine from a Mustang that he is rebuilding. He was driving the 66' Stang until he decided to rebuild it. The engine is free to anyone who wants it. His phone number is 219-762-2489 Again, no cost, just remove.

“We can rebuild him, we have the technology, we can make him better than he was, stronger, faster”

I want to start off by saying that thankfully Elizabeth, the baby, and Bethany were not hurt. After our show Elizabeth and I decided that we would head up to Pizza King in Granger for the weekly cruise in. The cruise in was great but I should have known something was up when there were actually 3 Mustang II's in the same place. Everything was fine until we left, Elizabeth left in the 76 Cobra II about a minute before I pulled out in the Lincoln, by the time I got to the exit there was a group of guys standing there looking down the street and I see the Cobra sitting in the middle of the road with the door open. I go down there and get the story. Turns out she was in the right turn lane and this kid in an F-150 thinks she is pulling into the 7-11 so he pulls out right in front of her, she locked the brakes but still hit his rear wheel. The kid was so nervous when he saw me pull up and get out, I told him **** happens what can you do? The worst part about the whole thing was the cop that came out. This guy starts to tell me he isn't going to make a report because he was a body man for 15 years and he knows its way less that \$1000 damage. I ended up arguing enough that he started a report. I was thinking yea and the cop at the scene of my wife's last accident said it looked like 1000 - 1500 in damage to her van, \$14,800 later we get the van back. Currently I have not received the statement from the insurance adjuster yet but I have had all of the parts that he and I agreed need replaced quoted and they are \$1800 and that is without any labor or paint. It looks like the car will need to be painted from the back of the doors forward, restriped, and most of the panels that are not being replaced will need realigned (I think it is safe to say it will be well over \$1000 not under like the officer said). The next day all I could think of was the quote I used for the title, it is from the old TV show the six million dollar man. Anyway I will keep everyone posted on how it goes, and thanks to everyone for the calls and e-mails. It is nice to know you are all here for us.

Thank You

Chris Pasternak
